KATHY PRYCE FOR WYR KNITTR BY BOND AMERICA

Wire-Knitted Flower Brooch

USE THE WYR KNITTR TO CREATE A BEAD AND WIRE ACCENT BROOCH.

Note: The Wyr Knittr is an automatic spool knitter for wire that knits an 8mm wire mesh cord that's perfect for embellishing knitted projects. Just as in hand knitting, you'll learn to use the Wyr Knitt by finding the technique that works best for you. It's fun, relaxing and easy to use.

Pattern Notes

Flower brooch is made using the cording-in-cording technique that comes with the Wyr Knittr. The cords are knitted, compressed and threaded into each other as you knit. This technique creates an especially soft and flexible feel to the wire.

Read instructions for the Wyr Knittr completely before beginning project.

The 3 weighted clips that come with the Wyr Knittr help to pull the stitches down below the needle latches as you knit. Each stitch must drop below the latch for the stitches to form properly.

Turn the handle slowly while learning, and when you first cast on, add the weighted clips one by one gradually, to avoid breaking the wire.

See www.wyrknittr.com for additional tips and techniques. The Wyr Knittr is available at www.bond-america.com and craft stores.

Flowers

Following cording-in-cording instructions included with the Wyr Knittr, knit 3 (11-inch) wire cords in yellow, green and gold. Compress these 3 cords by rolling like a pinece of clay on a flat surface. Set aside for now.

Cast on with gold wire and knit 12 sts. insert green compressed cord into gold cord you are now knitting and continue knitting until green is completely encased in gold cord. Cast off, leaving 4 inches of excess wire on each end for assembling flower.

Cast on with yellow wire and knit 12 stitches

Insert gold compressed cord inside yellow cord you are now knitting and continue knitting until gold is completely encased in yellow cord. Cast off, leaving 4 inches of excess wire on each end for assembling flower.

Cast on with green wire and knit 12 stitches.

Insert yellow compressed cord inside green cord you are now knitting and continue knitting until yellow is completely encased in green cord. Cast off, leaving 4 linches of excess wire on each end for assembling flower.

Assembly

Using wire ends of each double-strand cord, shape into 5-petal flowers, securing by stitching tog in center using wire ends, as if it were sewing thread.

Thread a variety of seed beads and glass beads onto wire ends to form a cluster of beads in center. Secure wire ends by threading through to back of flowers.

Secure flowers by permanently stitching onto purse using wire, or attach wire flowers to pin backs by stitching with wire.

Neckline Flowers

Referring to Embellish-Knit! directions and to instructions below, make a white cord 13 inches long for petals, securing ends. Make 5 lps with white and secure in center with needle and thread to form petals. Make a center with yellow and secure to center. Referring to photo for placement, sew on dress.

Belt

Make 1 flower as above for each end of belt. Make 1 green cord desired belt length, securing ends and leaving 3-inch tails. Using tail ends, tie petals and belt cord tog. Using green varn, wrap from tied petals to 1/4 inch down belt cord. See illustration.

I-Cord Posies Pattern Note

For samples, petals were made in grape, lemonade and berry blue; centers were

made in coconut, berry blue, and watermelon and stems were made in limelight.

Flowers

For each flower:

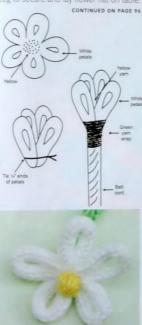

Petals: Make a 16-inch cord in desired color, leaving a 12-inch length of yarn for sewing.

Centers: Make a 1-inch cord in desired color, leaving a 3-inch length on both ends.

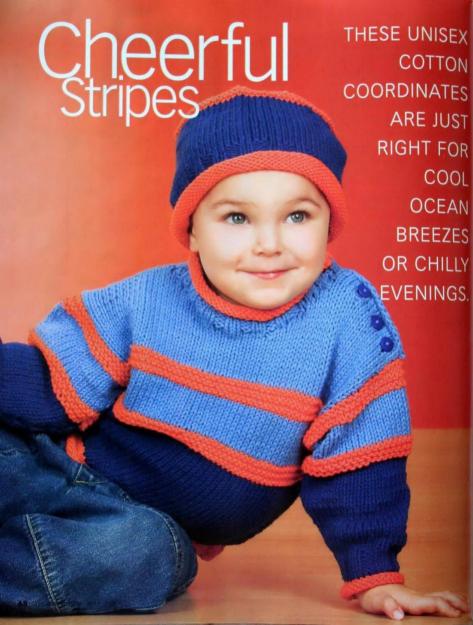

Stems: Work 2 rows of cord. Insert a cut chenille stem. Continue cording until cording has enclosed chenille stem, fasten off.

Assembly

Using photos as guide throughout, measure 3 inches for first petal and thread through tapestry needle at base. Fold cord for 2nd petal back and insert needle. Continue this way until all cording has been used. Tie ends of petal yarn tog to secure and lay flower flat on table.
